

Discover New Reads in the Online Catalog

We're excited to announce a new feature in the online catalog (catalog.dpls.us) that will help you find even more great books to read. Now, when you click on the **Find Similar Items** tab on a page for a specific book, in addition to links to the author and subjects, you'll see **"You might like..."** and **"Tags."**

"You might like..." is a list of links to other books in the catalog that you might be interested in based on the book you're currently viewing. **Tags** work something like subjects. Click on a tag to get a list of other books with the same tag. The larger the tag, the more popular it is.

You'll find this additional information on over 72,000 adult and teen books. We hope you enjoy this exciting new way to explore the web catalog.

Digital Downloads at Deschutes Public Library

Recently, DPL launched **Digital Downloads**, an enhanced downloadable audio book service. If you used our downloadable audio book service in the past, you'll recognize the same easy-to-use system for finding and downloading audio books.

With the enhanced Digital Downloads, you'll find more available titles and shorter wait times for requests. If you haven't given it a try yet, go to www.dpls.us/digitaldownloads to find out more. You can check out up to eight audio books and keep them for two weeks. Many audio books can even be burned to CD for playback in standard CD players.

Some of the newest additions are *A Son of the Circus* by John Irving, *Bell, Book, and Scandal* by Jill Churchill, and *Beyond Band of Brother* by Major Dick Winters. Look for new titles every month.
