

Redmond's Free Programming

The Redmond Public Library is endeavoring to provide free programming and services to enhance lives and to assist people through these challenging times. For example, we will be hosting "Music in Public Places" provided by the Central Oregon Symphony Association periodically throughout the year. Symphony members will be on hand to provide relaxing music for the enjoyment of library users.

For those who are handy with a hammer, we will be providing a build-your-own-chicken coop workshop on May 6. We will raffle off the coop used for the demonstration.

We have also recruited some volunteers to assist in the computer area during various times of the week. Volunteers will be on hand to assist with resumes, on-line job applications, or any computer task. For computer volunteer schedules, please contact our Volunteer Coordinator at 312-1053.

Also, be sure to check out our many displays throughout the library which offer tips and tools for dealing with challenging times.

Finally, check out our many free weekly programs for children, teens and adults. Just go to the Redmond branch calendar of events and see what's happening for all age groups.

Sisters Library Has Fun & Free Services

What better way to spend the day than at the Library, especially if it's a place where you can learn something new, relax, have fun plus it's free.

- Are you trying to brush up your computer skills for a job interview or want to learn how to put together a job resume? The Sisters Library offers free basic classes on "Getting Started on the Computer" to more advanced classes on "Creating a Resume with Word."
- Are you looking for an activity that is family friendly and free? Every week the library offers fun, creative and educational story times for children 18 months to 5 years old. For adults we have monthly cultural programs and book discussions that provide fun entertainment and stimulate your curiosity.
- Are you looking for a special place to relax and read a book or newspaper? The Sisters Library has the newest, hottest books plus current newspapers and magazines. The lounge chairs are comfortable and the fireplace is inviting.

For more information on the library's fun and free service please call Peg Bermel at 541 312-1072 or pegb@dpls.us

Hands-On Computer Help in La Pine

Sometimes, one hour on the computer is just not enough! That is why the La Pine Public Library conducts Adult Laptop Labs, which usually operate for 1 ½ -2 hours. We open our meeting room and set up our laptops – and the rest is up to you. A dedicated staff person is available, answering your questions and providing assistance with your computer and online needs. Whether you are using the State of Oregon's iMatch employment system, typing a resume, using an online typing tutorial, or just checking your email, our Laptop Labs are the place to be for all of your computer needs!

Check our schedule at www.dpls.us/calendar for our upcoming labs and classes. We are here to help!

Art in the Library

Did you know that every library displays the works of local artists? Stop in and view our free art galleries!
