

HOW TO:

Use Creativebug with Fun Tips & Tricks

Creativebug's website is full of video crafting classes led by experts. Think of it as the Netflix of crafting!

Your library card gives you free, unlimited access to Creativebug.

creativebug®

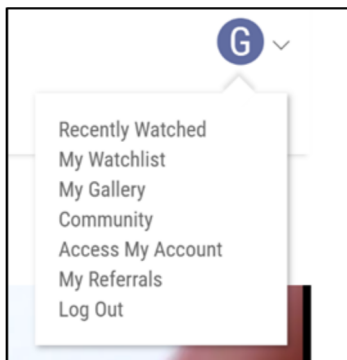

1. **The Pattern Library.** Are you a fan of making clothes through knitting, sewing, or crocheting? Creativebug has a lot of patterns available for download. Log in to your Creativebug account at <https://www.creativebug.com/lib/deschutes>. Then hover your mouse over Inspiration; select Pattern Library. You can now download any pattern you'd like.

2. **Use Daily Practice for 31 Short Lessons.** Ready to learn or improve a skill by doing a little lesson each day? Check out the Daily Practice section. Most of the Daily Practices are made up of 31 short lessons, one for each day of the month. This is a great way to practice and improve your skills over time.

3. **Use the Recently Watched Menu.** At the top right of the screen you'll find the first letter of your name. Click it to pull down your options menu. *Recently Watched* shows all of your viewed videos, watchlisted videos, and videos you've partially watched in one place. You can use it to find a video you may have only watched part of; it's also full of great suggestions for new content!

4. **Check out CBTV.** CBTV, or Creativebug Television, is where you can find the newest instructors, classes, videos, and monthly updates on what is coming out next. You'll also find Facebook Live recordings and other videos Creativebug has on social media.
