

HOW TO:

Set Up Parental Controls with Kanopy Kids

These instructions guide you through the steps needed to access and set up parental controls in **Kanopy Kids**. You must have a Kanopy account set up before accessing Kanopy Kids. Kanopy Kids includes curated content for children aged preschool and up, including educational and enriching videos that are developmentally appropriate. Access story times, animated storybooks, language learning, math and science, plus movies and TV shows. All Kanopy Kids streaming is unlimited, and doesn't affect your monthly movie credits.

Access Kanopy Kids.

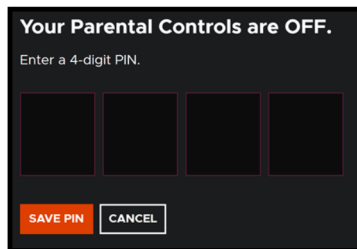

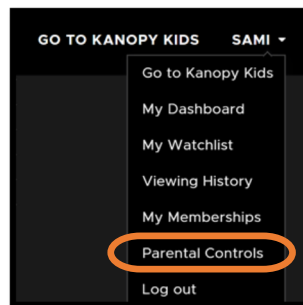

1. Once you have registered for Kanopy, access Kanopy Kids by selecting "Go to Kanopy Kids" at the top of the screen, or by using the drop-down under your name.

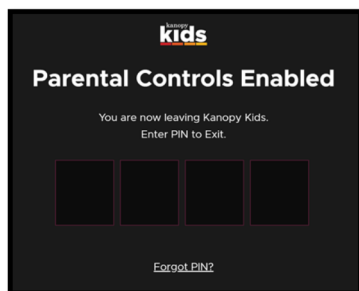

Set Parental Controls.

1. Set up a parental control PIN to keep kids from exiting Kanopy Kids and accessing the rest of Kanopy content.

- Set it up from the pop-up window the first time you access Kanopy Kids, or by using the dropdown menu under your name, select "Parental Controls."
- Set a PIN to turn on Parental Controls.

- When you choose to exit Kanopy Kids, you'll get a pop-up window asking you to enter your PIN. Once it's entered you'll be able to access the rest of Kanopy's content.

- To turn off parental controls, go to the same place you turned them on, enter your PIN again, and select "Turn Off."

Tip:

Create a watchlist by adding videos to "My List." Go through with your child and find some videos for them to watch, then set them up with their watchlist. This can be less overwhelming and keep videos more focused.
